

Outside In

To the Fullest...

Issue 7

Insighter

Outside In Mission Statement: From the beginning, Outside In has been all about living life to the fullest. Embrace the adversity that each day presents and overcome it! Rise above the mundane concerns that so easily beset us. Dare to imagine bold new ways of being and strive for excellence in all things. Our vision is lofty indeed, proclaiming that joy does not derive from circumstances but from the attitude of the heart. The fullness of life is experiences with each step of the journey as we seek to bring out the very best in ourselves and in each other.

Culinary Corner

Yum!

Students have been hard at work here at Outside In over the summer months. They have been cooking, baking, and learning all about the culinary arts. They have also been busy making homemade pizzas and fruit pies!

The Path to Recovery

Students in the Pathway to Recovery program often connect the importance of community to individualized recovery. Over the summer, some students had the opportunity to complete nature walks on the Ligonier Valley Trail. They learned about local history while exercising, education and physical fitness have always been valued at Outside In. Congratulations to all students who became physically, emotionally, and mentally stronger during the 2021 summer!

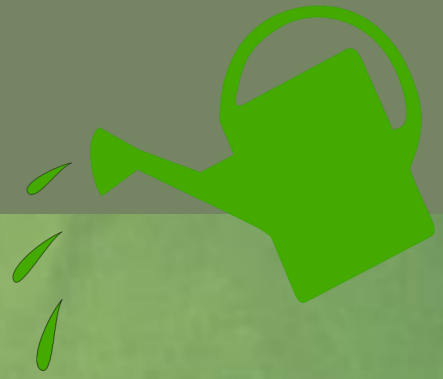

Forensic Files

The fingerprinting lab is one of several activities the Outside In students are completing as part of their Forensic Science class this summer. The course curriculum is designed to offer students a broad exposure to how science is used to solve crimes. The emphasis this summer has been on the role of physical evidence and types of evidence that can be collected. Throughout this course, the students have completed a tire track analysis lab, taken a virtual tour of the FBI crime lab in Quantico Virginia, and discussed various careers available in the field of forensic science.

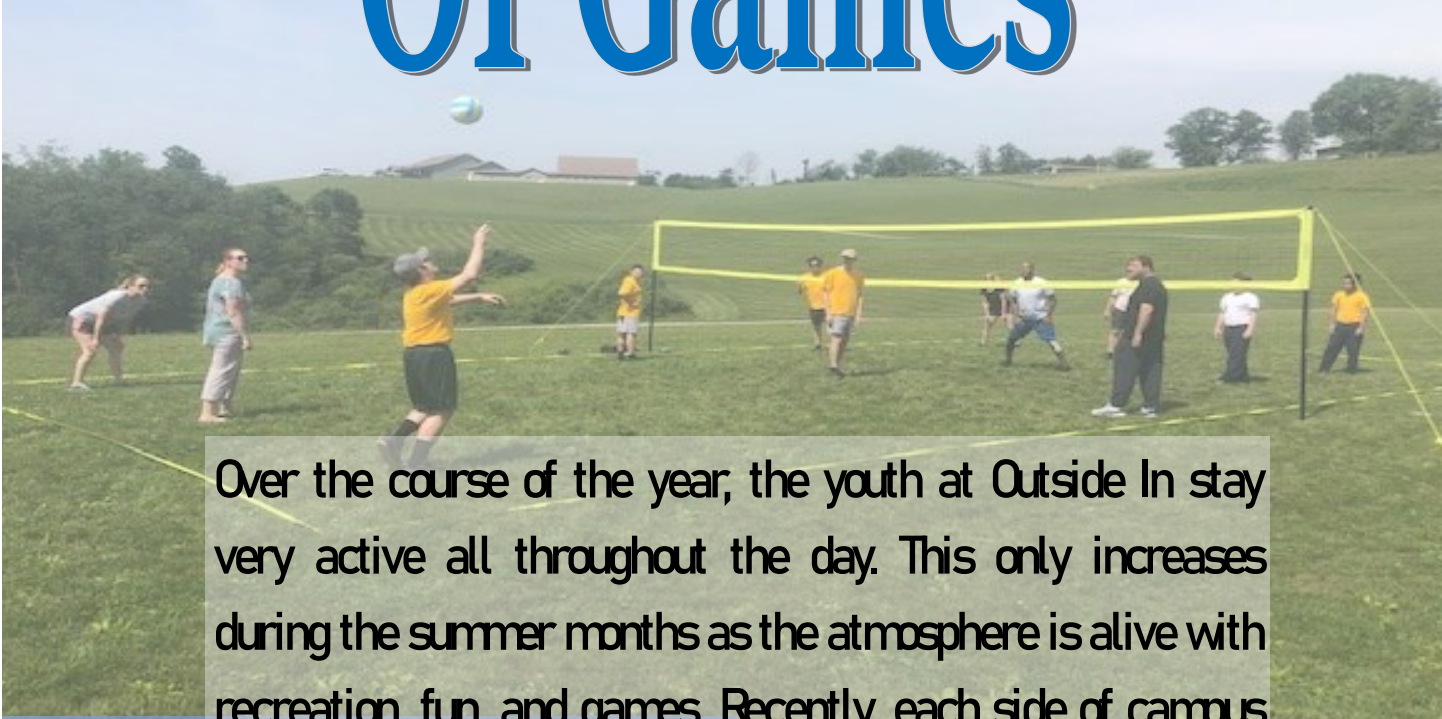

Growing Together

From landscaping, to cultivating the garden, to completing work projects, students at OI have kept busy these past several months. Our youth take great pride in their living environment and help to keep our campus looking beautiful year round.

OI Games

Over the course of the year, the youth at Outside In stay very active all throughout the day. This only increases during the summer months as the atmosphere is alive with recreation, fun, and games. Recently, each side of campus participated in the OI games, which included various fun activities including ladderball, cornhole, volleyball, and a pie eating contest. The kids and staff had a blast and everyone enjoyed the beautiful weather!!

16th Annual Golf Outing

Every year, Outside In hosts their annual golf outing at Champion Lakes to help support our youth. We want to send a huge thank you to all of the teams and volunteers that showed up to contribute, as well as the following sponsors.

We appreciate your support!
